

Specifications for English Manuscripts

1. Manuscripts should use Hangeul (a Korean Word Program) or MS Word. The manuscripts submitted using MS Word are to observe all the following regulations except those in 6 and 7. The layouts of the text will be managed by the publisher once they are accepted to be published.
2. The manuscripts written in English can be accepted for the April and December issues. However, it is strongly recommended that they be submitted for the August international issue.
3. Manuscripts should use A4 size paper setting.
4. Manuscripts should be about 25 pages in length following the SSK's style regulations.
5. It is recommended that the title of the article does not exceed two lines.
6. The abstract should be written in the following manner.
 - 1) The beginning of the abstract should start with the author's name, year of publication, and the title of the article (-2 pt. left & right indentation, simmyeongjo 9 pt. with the author's name and the title in bold type) which are followed by the name of the journal (italics) and the number of the issue and volume (italics).

(e.g.)

Abstract

Kim Hyun-kang 2012. **Interactional Functions of Nodding in Conversation.** *The Sociolinguistic Journal of Korea* 20(1). People communicate, as we know, not only with the spoken language but also with a body language. ...

- 2) Body of Abstract: The abstract should be written not exceeding 200 words and be fol-

lowed by about 5 keywords.

3) Number of the words in the abstract should be presented in a parenthesis.

(e.g.)

... Continual interaction regardless of turn-taking or communication content allows the participants to feel that the conversation is being accomplished smoothly. In that sense, nodding contributes decisively to the conversation as an interactional achievement. (187)

Keywords: nodding, communicative function, turn-taking, interaction, conversation

3) Abstract Layout

character				paragraph
font	size	<i>jangpyeong</i>	spacing	
<i>sinmyeongjo</i>	9 pt	85	-3	left & right margin 5ch, line spacing 130%

7. Main Body Setup

1) Characters

font	size (point)						<i>jangpyeong</i>	spacing
	title	sub-heading I	sub-heading 1	body	examples & footnotes	references		
<i>sinmyeongjo</i>	14	12	10	10	9	10	85	-3

2) Paragraph Layout

margin		indentation	line spacing	above	below	character spacing	alignment
left	right						
0	0	2	145%	0	0	0	mixed

3) Page Setting (Margins)

top	bottom	left	right	top header	bottom header	binding
56	56	50	50	10	10	0

8. The subheadings should be numbered in the following manner: I. 1. 1) (1) ① ...
9. All the headings and sub-headings are written one line apart from the texts above and below except subheadings (1) and ①.
10. All the headings are left justified.
11. Korean words cannot be mingled with English ones for a reference, a title, or any other information. Korean words need to be romanized following the system of "Romanization Regulation of Korean Words" by the Ministry of Culture and Tourism (2000) of Korea. Manuscripts can adopt other systems, such as Yale Romanization for a special purpose. In that case, however, manuscripts should stay consistent in style. Glosses are also allowed for interpretation of languages other than English.
12. If the article is co-authored, the first author or the corresponding author should be marked (*) and footnoted.
13. As for footnotes, only content footnotes, not reference ones, are allowed as follows.
14. Tables and figures should be numbered and headed, being disposed in the middle as follows. And content words in the headings should begin with capital letters.

Table 9. Variants of the Variable (a)

Figure 9. Cross-generational Differences Regarding the Variable (a)

<p>(e.g.)</p> <p>...Unfortunately, what is missing in both Chung (2002) and Weber (1998) is information which precisely addresses the differences between men and women.</p> <p>3)...</p> <hr/> <p>3) A mirror image of this possible social variation in Eastern Island Polynesian is found in Finnish. Vainikka argued, however, that this occurs only in Standard Finnish. In colloquial Finnish this genderlectal difference is more clearly observed.</p>
